

Renewals Officer report

The renewal panel continues to process applications within the Archery GB (AGB) guidelines as they arrive. We would urge all renewing coaches to read the guidelines from the web site and follow the guidelines before submitting.

Common issues are

Child protection and safeguarding course – now mandatory for each renewal plus every other one needs to be a face to face course. And remember to add this to your CPD points

Self directed learning – can only form 25% of your CPD points

Work record – whilst not critical for renewal (yet) we like to see some variety that demonstrates development by working in other area other than beginners courses.

A word on the process – coach submits their application preferably by electronic means, it is circulated within the committee for review and comment, once approved a recommendation form is completed and submitted to AGB. NB the original application is not sent to AGB.

Sometimes we reject the application, normally with a reason / guidance. Feel free to discuss this with me or the CCO if you feel we are wrong, AGB guidance is not perfect and we have found differences in advice from the office.

Finally keep developing as a coach, AGB's watch word is empowerment and we are all empowered to develop our coaching skills, there are a number of opportunities out there with in and outside the archery world.
